HA. Ihavandhoo Council

Haa Alif Atoll, Republic of Maldives

Island Development Plan 2026 - 2031

Ref: HC/PLAN/2026-31

Vision

Ihavandhoo is a clean, safe and prosperous island: a centre for sustainable fish processing in Haa Alif Atoll, with strong public services and opportunities for every family.

Strategic pillars

1. Prosperous island: grow the fish processing and cold chain sector; support small businesses.
2. Resilient infrastructure: harbour, roads, reclamation and sewerage.
3. Healthy and educated community: schools, health services, sports and youth.
4. Empowered people: women, youth and persons with disabilities.
5. Clean and green island: waste, energy and coastal protection.
6. Good governance: open, digital and accountable Council.

Targets and budget

Programme	Target by 2031	Estimate (MVR m)
Harbour and quay	Extended quay, new slipway	8.5
Land reclamation	12 ha new land for housing and industry	22.0
Cold storage and processing	Cold chain capacity of 300 t	14.0
Sewerage network	All households connected	18.5
Roads and drainage	All roads paved	6.2
Renewable energy	40% of public electricity from solar	5.0
Services and digital	All services online	1.2

Monitoring

The Council will publish an annual progress report against this plan and review it with residents at a public meeting each year.
